"Was everything you can imagine and more. She does it all and leaves you feeling tired, wore out, and revived, if that makes any sense at all. Seriously, I will be seeing her again!"

"Not as good as the pics, but you know, that's how it always is with all the girls. She did what she was supposed to I guess. It was good, I would see her again but it was not something I would write home."

"She tell me she do many things before I pay and she be nice to me about all things. But after she not do everything like she say to me. She does sell me her panties which is very good and I like. I have better before and she good but I see better last week with Sheika but she is not longer available."
